NATIONALS WIN TITLE IN FIERCE PITCHERS' DUEL

POLO GROUNDS, New York. — Coming from behind, when the count stood three games to two against them, the New York Giants today annexed the world's baseball championship, after winning three straight from the Yanks.

Waite Hoyt, Brooklyn high school boy, who twice pitched McGraw's men to defeat, was unable to stop their onward rush today.

Cold, wintry winds swept the grand stands, and the smallest crowd of the series witnessed the game.

LAST PINK EDITION TODAY

The baseball season now is at an end. The Lima News Pink Final edition, started as a service to Lima baseball fans at the beginning of the season, therefore, will be discontinued with the edition today.

Its purpose has been accomplished. It was issued at a loss to the publishing company all season, but its popularity with the fans warranted its publication as a fulfillment of the policy of this newspaper—SERVICE AT ALL TIMES.

The growth in the circulation of the Pink Final was proof of the approval of fans. That is compensation for the pecuniary loss occasioned by its continuation. The Lima News thanks you.

LIMA-TO-MOBILE LINE PROBABLE

Ford Plans Extension of D. T. & I. to Gulf.

MAY BUY C. M. & B. ROAD

Would Follow Purchase of Muscle Shoals Plant.

NEW YORK. — (By United Press) —The possibility of an all Henry Ford railroad, extending from Detroit to Mobile, was seen here today by railroad men in Ford's exclusive statement to the United Press that he had secured an option on the Cincinnati, Milford and Blanche, which gives him Detroit, Toledo and Ironton an entrance to Cincinnati. If Ford gains title to the great Muscle Shoals plant in northern Alabama, it is believed to be his plan to secure an all-Ford direct rail connection between Detroit and Muscle Shoals, with a southern extension to Mobile, which will give the automobile manufacturer direct line from his plants at Detroit to tidewater at the Gulf, tapping the West Virginia coal properties, the Muscle Shoals plant and the Birmingham iron and steel districts.

DATA SECURED

Representatives of the Cincinnati, Milford and Blanche are in Detroit today, conferring with Ford officials on the details of the transfer. It is known that Ford engineers have been investigating the purchase of the Cincinnati, Georgetown and Portsmouth, which extends east from Cincinnati towards Portsmouth Ohio, with the idea of connecting Ironton, the present terminus of the D. T. & I. and Cincinnati, with a direct Ohio river valley line. Ford is known to be planning upon tapping the Ohio river at Portsmouth as well as Ironton and Cincinnati. An extension north from Cincinnati to Dayton is also reported under consideration.

Ford's acquisition of the Cincinnati, Milford and Blanche which is an interurban line, would be for the purpose of using its right-of-way (Copyright 1921)

BENEFIT TO LIMA

While the direct advantage to Lima, one of the principal cities on Henry Ford's D. T. & I. railroad, could not be estimated if he succeeds in connecting Detroit and Mobile by rail, business men said Thursday that the accruing value to this city would be great.

It would give Lima a direct line into the West Virginia coal fields; connect the city with Cincinnati; a direct shipping point, with another direct route, and afford connection with the Southern iron centers as well as provide a direct shipping route to gulf ports for manufacturers.

Lima, being a junction for various important railroads with the D. T. & I., probably would become an important point for the system and undoubtedly would come in for more or less activity here by the Ford interests, it was pointed out.

MINE UNION HEADS ARE OUSTED

Kansas District Officers Removed by President Lewis.

PITTSBURG, KANSAS. — (By Associated Press). —The Kansas district of the United Mine Workers of America has been suspended by John L. Lewis, international president, it was announced today.

Alexander Howat and all other district officers are summarily removed, and George L. Peck, until the district's suspension the international board member, has been appointed acting president of a provisional district.

"All loyal miners of the district will recognize the provisional district officials," Lewis declared in a message announcing the suspension. Peck in a statement this morning, declares that the miners must go back to work at once. He announced that he would take charge of the district headquarters today.

With Peck is named Thomas Harvey, suspended secretary-treasurer of the Kansas district, as provisional secretary-treasurer. Harvey has been opposed to Howat in the Kansas union affairs.

Peck and Harvey are ordered to take charge of the headquarters and all records and all money of the Kansas organization.

NEW RATES FILED.

COLUMBUS. —Following the example of the New York Central railroad which voluntarily filed new schedules on iron ore transportation reducing freight charges 28 per cent a few days ago, seven other lines have filed new tariffs with the state utilities commission effective at once. They are the Clover Leaf, Pennsylvania, D. T. & I., Nickel Plate, B. & O., Wheeling and Lake Erie and Bessemer and Lake Erie Roads.

Boundaries

ONDULAS, Guatemala and Salvador cease to exist in their old governmental form. They merge into the Central American Federation, governed by a provisional federal council, much as our states are amalgamated into the United States. As time goes on, other international boundaries will disappear. The world will be united into one country, the United States of the World. That is the sure way to end war. You will not live to see it.

Religion

THE religion of prehistoric man was, on general lines, not much different from that of civilized man today, says Professor Manage, lecturer of the French Catholic Institute, Paris.

The difference is largely in expression and in ability to conceive the tremendous power of the God behind all creation.

When man first grasped the idea of a God, he emerged from the animal state. When he casts it off he reverts to the animal order, in morals—which are the foundations of civilization.

Hearing

WHEN the unknown soldier is buried at Arlington Cemetery on Armistice Day, President Harding will stand at the grave and give the nation's tribute.

Simultaneously, in many cities, memorial gatherings will hear the president's voice, carried from the grave by wires.

Inventors in time will perfect some compact device by which wireless will carry important speeches to every one, no matter where they are. Later, human speech will be abolished. Telepathy will take its place.

Health

CANCER now kills, in the United States, 37,116 males and 52,000 females a year, says the American Society for the Control of Cancer.

Its most important message is: Remember, cancer in its beginning can be cured.

That is true of nearly all diseases at least once a year, every one should go to a doctor and dentists for thorough examination. Health officers, nipped in the bud, could be eliminated. What day to go? Make your birthday—easy to remember.

Gas

A 53-year-old New York woman takes a nap. The rubber tube in a gas stove in her room becomes disconnected. The fire goes out. The gas asphyxiates her. New York City has an average of 450 such deaths a year.

Guard against defective rubber tubing if you foolishly use it on a gas heater. With equal vigilance guard against the twin peril—never turn gas up until sure it is lighted.

Joke

THE London Morning Post publishes a letter from a reader, asking what the reader considers the best joke of the year.

Traveling in Scotland, he noticed that talking in barber shops was limited to a few necessary words, such as "You need a little tonic" and "Not today."

"This is remarkable!" commented the visitor.

"Aye!" explained an old Scot. "They're both thinking hard about the tip."

K. K. K.

USSELL K. TRIMBLE, king of the Ku Klux Klan in southern New Jersey, gets orders from the wizard's palace in Atlanta, building use of regalia outside borders.

The best way to curb the K. K. K. is any organization of night riders would be to make the wearing of regalia illegal.

Let people have the courage to defy the law, or take it into their own hands, unless they have a mask to hide behind.

PROBING AFFAIRS OF TROOP E

Special Investigators Claims Shortage of \$3,600.

FOUR TROOPERS ARRESTED

Two Held To Grand Jury—May Demobilize Command.

Religion

An investigation of the mysterious disappearance of several thousand dollars worth of army property and stores belonging to Troop E, First Ohio cavalry, was begun here Thursday by inspectors for the State Adjutant General's department. An audit of the organization's property will be made to determine the extent of losses.

LOSS PLACED AT \$3,600

Colonel Orwig stated that the exact loss can not be determined from casual survey, but he predicted that the total will amount to at least \$3,600.

Harry B. Horner, assistant adjutant general with rank of Lieutenant Colonel, former commander of Troop E, and Captain Kenneth Kerr, present commander, spent some time with the inspectors.

"We are here for the purpose of inspection, not prosecution," stated Colonel Orwig. "A survey of the company property will be made."

Among the articles missing, they stated, are: 101 blankets, valued at \$8 each and 52 saddles, of the value of \$30. Besides these articles, it is claimed that shoes, clothing, shirts, bridles, rifles, automatics and even a number of tons of hay cannot be accounted for.

It was predicted that the outcome of the inspection will be that Troop E will be demobilized.

MANY THEFTS

Ever since the troop was organized in November 1919, its property has steadily disappeared thru theft, the investigators said. A number of the members of the organization have been apprehended and property recovered.

The vast amount of missing property, it is claimed, caused Adjutant General George Florence to send inspectors to Lima to probe into the matter.

Four members of Troop E were arrested Thursday and charged with theft. They are: Ben Smith, 131 E. High-st.; Clarence Sowers, 125 S. Cooksey and Orwin Croftinger. Sowers and Smith plead guilty before Judge Emmett Jackson and were held to the grand jury under \$200 bonds.

The others were to be arraigned Thursday afternoon.

INCREASED FARE AIDS CITY LINE

Receiver Files Report of Business For August.

Receiver B. J. Jones of the Ohio Electric Thursday in federal court in Toledo filed his report of the receipts and expenditures of the Lima city street railway system for the month of August, which shows a slight decrease in operating expenses over the same month last year and an increase in receipts over August in 1920.

There was received from passenger revenue in August of 1921, according to Jones' report, a total of \$20,031.37, against \$21,452.79 in August of 1920. Receipts from other operations in August of 1921 totaled \$8,583.37 and in August 1920, \$1,352.76. Total receipts in August 1921, \$28,618.74. In August 1920, \$22,805.55.

OPERATING COST LESS

Operating expenses in August of this year totaled \$26,522.72, against \$27,494.38 in August of 1920. Net earnings for the month this year \$2,096.02.

Passenger revenue per passenger, car mile in August of 1921 is given at \$24.22. In 1920 at \$27.95. Daily average gross revenue in August was \$923.75, against \$751.80 in 1920. Daily average net revenue \$67.48, and \$132.24 in 1920. Daily average passenger receipts in August this year, \$646.07. In 1920, \$692.03.

Fare increase from five to seven cents has materially aided the street car company in increasing receipts to offset operating expenses.

PROWLER IS SHOT BY YOUNGSTOWN WOMAN

YOUNGSTOWN. — Mrs. Emma Bamberger, of Rosemont, near here, aroused by two negroes and a white man prowling about her house early today, shot one of the negroes thru the breast before she was overpowered, bound and chloroformed, she told her husband, a railroad employee when he returned from work this morning. Evidence was found that the injured man's wound had been dressed, the house ransacked and the chicken coop robbed before the men left in the direction of Alliance in an automobile.

BREAK THREATENS IN PEACE MEET

British-Irish Conference Again Abruptly Adjourned.

MAY RECONVENE TOMORROW

Won't Come Back, Republican Army Chief Says.

LONDON. — (By Associated Press). —The members of the British cabinet and the Sinn Fein leaders conferring here today adjourned at 1:30 o'clock this afternoon, after having been in session only an hour and a half.

Arthur Griffith, Sinn Fein foreign minister and head of the Irish delegation, was asked:

"When are you coming back?"

Michael Collins, Sinn Fein finance minister and commander-in-chief of the Irish republican army, interjected:

"We are not coming back."

Mr. Griffith then answered: "We are coming back at eleven o'clock tomorrow."

BREACHES OF TRUCE

The conference convened in the cabinet room of Premier Lloyd George's official residence in Downing-st at noon. Irish sympathizers gave the Sinn Feiners a noisy welcome as they reached Downing-st and proceeded to recite the rosary, kneeling in the street.

The first subject for discussion was breaches of the truce in Ireland, including instances of kidnapping by the Sinn Fein. Altho the British government since the truce has not arrested any one in Ireland for political offenses, there have been several alleged cases of kidnapping including a legal official. Kidnapped including a legal official. It is expected here that the kidnapped will be released, altho the Sinn Fein claims most of them were offenders against the ordinary law.

PUBLICATION PROTEST

On their part the Sinn Feiners are endeavoring to secure better treatment for 3,500 of their number in internment.

In reply to the Sinn Fein protest against publication of the proceedings of the conference beyond what is contained in the agreed communiqué, the government has promised to institute an inquiry. It is not expected, however, that secrecy can be maintained when the house of commons goes into session next week.

An official bulletin says the conference adjourned until eleven o'clock Friday morning.

APPLE GROWERS MEET

COLUMBUS. — Ohio commercial apple growers, meeting here today, were considering plans for shipping Ohio grown apples under distinctive brands, packing them under approved standards and a national advertising campaign.

About 75 men are attending the meeting.

MEET OCT. 19

TOLEDO. —The annual Ohio Welfare Conference will meet in Toledo October 19-21, according to a program made public here today by H. H. Shirer, of Columbus, secretary of the conference who is in Toledo completing arrangements for the meeting.

THREAT OF WORKERS

The interstate commerce commission will be asked to reduce freight rates depending upon the success in cutting wages and a recommendation to congress will be made to legislate the United States railroad labor board out of business.

It has been definitely stated by leaders of some railroad unions that another cut in wages, in addition to the \$400,000,000 that was lopped off the railroads' payroll last July, would mean a strike.

The question of wages is not involved in the strife between workers and packing executives. In this case, the open shop recently installed by the packers is the issue.

DIES OF INJURIES

COLUMBUS. — David Fitch, 51, formerly of Newark, died at a local hospital last night from injuries sustained in an industrial accident four years ago. He has been under treatment since the time of the accident. The state industrial commission recently paid a \$1,200 fee to a local hospital for service for him.

LONDON MENACED BY UPRISING

Jobless Armies Organize, March On Premier's Residence

STRONG GUARDS ARE POSTED

Streets Patrolled and Military Motors Collected.

Religion

LONDON. — (By Associated Press) —Elaborate police precautions were taken by the authorities of London today to cope with a monster demonstration by unemployed persons who planned an attempt to force their way into Downing-st to interview Prime Minister Lloyd George.

Those engaged in the demonstration planned to collect on the Embankment and divide into two columns, one of which would try to reach Downing-st thru Trafalgar square, while the other would approach by the way of Westminster and Whitehall.

Thousands of police were stationed early this morning within a radius of a mile from Downing-st.

The entrances to that thoroughfare were barred and under heavy guard gathered in Whitehall awaiting the arrival of the Daily Eireann delegates on their way to the conference with British cabinet ministers.

Scotland Yard was all activity this forenoon, and was prepared for any eventuality.

A fleet of military motors for the quick movement of police had been collected and patrols of mounted police from outlying districts were continually arriving.

CONFERENCE MAY BRING STRIKE

Rail Meeting Tomorrow Will Seek Another Wage Cut.

CHICAGO. — (By United Press) —Employers and workers in two of the largest and most vital industries in the United States prepared for a finish fight here today.

With the majority of 2,000,000 railroad workers and 75,000 packing house employees on record as favoring a strike, and employers in both industries standing pat, events were moving toward an industrial crisis.

Strikes in both industries are up to the leaders of the railroad brotherhoods and the Amalgamated Meat Cutters and Butchers' Union, according to the accepted rules of the organizations.

CONFERENCE TOMORROW

Strike vote by the rank and file is the club which now hold over the heads of employers, while treating in matters of wages and working conditions.

Railroad executives who arrived here today, refused to allow their names to be used in connection with the probable outcome of their conference which starts tomorrow.

These will be the things planned at the conference, according to best information:

The United States rail labor board will be asked to reduce wages of rail workers.

PAPER BELONGS TO THE PUBLIC

Functions of Journalism Pointed Out to Press Congress

TRUTH DECLARED ITS BASIS

News or Comment for Business Consideration Unworthy.

HONOLULU, T. H. — (By Associated Press) — A newspaper does not belong to its owner, William Southern, Jr., owner of the Independent Mo., Examiner, told the Press Congress of the World, in session here today in the course of a speech on "The Provincial Press."

"A newspaper is a public institution, and is not fulfilling its highest function if devoted selfishly."

TRUTH THE BASIS

"As a fundamental principle, it is agreed that the truth is the basis of all correct journalism. To go beyond the truth is a betrayal of trust. To suppress the truth when it properly belongs to the public is always to be condemned and never practiced."

"Control of news or comment for business considerations is unworthy. News should be written and interpreted wholly and at all times in the interest of the public."

"Not only are these principles to be applied to the news and editorial, but to the advertising columns. Deceptive or misleading advertisements or advertising disguised as news brings discredit to the newspapers which permits such tactics."

DUTY OF PAPER

"It was a noted Frenchman who wrote 'Suffer yourself to be blamed, imprisoned, condemned; suffer your self even to be hanged, but publish your opinion. It is not a right, it is a duty.'"

Small town newspapers, Mr. Southern told his audience, have come nearer formulating a set of ideals of the newspaper profession into a code of ethics than has any other section of the newspaper world.

"These declarations have so far only come from the provincial papers but have received the strong endorsement of the larger papers and world wide comment and approval."

"The highest art in the newspaper business," Mr. Southern declared, "is to give the readers what they should have in such a way that they will think it is exactly what they want."

COURT THANKS JURY IN KINSEY CASE; IS MADE BASIS OF APPEAL FILED

Has the court the right to thank the jury in delivering the charge? That is what Judge Emmett Jackson did when he charged the jury before whom Ray Kinsey was tried and convicted of running a motor car while intoxicated.

Kinsey's attorney is making the incident one of the basic points of an appeal of the case on a writ of error to common pleas court. The appeal was filed late Wednesday.

The attorney maintains that the court erred in thanking the jury for serving, while delivering the charge. He thanks the jury for its main findings. It is the custom to do after the verdict has been arrived at.

Judge Jackson, in thanking the jury, stated that it is a duty of good citizens to serve on juries, in order that the law might be enforced. He stated that it had nothing to do with the charge to the jury and could not have their verdict.

Kinsey was held in jail, and his automobile license revoked.

INJURED WHEN YOUNG. MAN IS FOUND INSANE

William C. Newland, Auglaize-ite, was adjudged insane and ordered committed to the Toledo State hospital, late Wednesday. His father filed affidavit for the hearing.

Newland was discharged from the world war, after six months of service, because of his mental condition. When but a child of six, he was struck upon the head by a heavy clock weight, which was suspended above a door.

It was only recently his condition became serious.

DEATH OF MRS. DENNIS

Mrs. Sarah Dennis, mother of D. G. Dennis, former Lima resident died at her home in Chicago, Wednesday, according to a message received here Thursday by Mrs. F. E. Gould, 806 W. High-st., mother of Mrs. D. G. Dennis. Mrs. Dennis resided at the home of her son. Interment will be in Mendota Pa., Friday.

LEISURE VISITORS

The following members of the W. F. M. S. of the Leipsic Methodist church attended the Cincinnati Branch meeting of the Women's Foreign Missionary Societies of Methodist churches in this city, Thursday: Mrs. A. H. FAIR AND WARMER; FROSTY TONIGHT

Some nippy old frost Jack laid over the landscape Wednesday night, old Sol dissipated it early Thursday when the rays of the sun peeped over the eastern hills, setting all hearts to singing with gladness. In prospect of a regular Indian Summer day, which was fully realized.

A little thing like a prediction of more frost tonight doesn't worry anyone, so long as the sun continues on the job by day and the weather prognosticator has a fair and somewhat warmer schedule for tonight.

As a further addition to the joy of living, Friday is promised to be fair and warmer. If the world series does go another day, the player board crowds will likely not be inconvenienced by inclement weather.

W. F. M. S. NEXT IN CHATTANOOGA

Delegates Pick Tennessee City In Thursday Session.

The city of Chattanooga, Tenn., was selected as the next place of meeting of Cincinnati branch, Women's Foreign Missionary society, at the close of the session, Thursday morning.

Lima extended an invitation to have the society here again next year, but Chattanooga was unanimously decided upon.

Election of officers will be held at the late afternoon session Thursday. The nominating committee has compiled a report, from which the list to be elected at the afternoon session, will be chosen.

The program Thursday afternoon will be devoted wholly to missionaryaries and their work, at the close of the election.

The session Thursday evening will be musical in part. Prot. C. Mrs. Richmond will play and Mrs. Irene Hattuff Klinger will sing "The Ransomed of the Lord," from MacDermid.

The address will be given by Bishop Thomas Nicholson, Chicago. The closing session Friday morning will be devoted to reports of summer schools, including Lakeside, Lancaster and Bethesda.

FIRE CHIEF PROTESTS WOODEN SHINGLES IN CODE BODY MEETING

The building code committee of the Chamber of Commerce met Wednesday night. Fire Chief Mack was before the body with some interesting data regarding the regulation and limits coming under the new code.

Chief Mack made an appeal that wooden shingles be prohibited in future building in Lima and said that of the total number of five alarms answered by the department in one month, 23 of the blazes were caused by sparks dripping on shingled roofs.

Methods of fire limits under the new code and the question of prohibiting wooden shingles in Lima were taken under advisement by the committee and will be held in abeyance pending drafting of those particular codes into the code. Ample protection would be given owners of new buildings already constructed and having new shingle roofs during the life of those roofs, the committee held.

According to Chief Mack very few cities are building with wooden shingles used as roofing.

NEW VOTING DISTRICTS ARE CREATED BY COUNTY ELECTION BOARD IN CITY

Changes in the boundaries of Lima voting precincts, made in order to increase the number from 56 to 70, may prove confusing to the voters if they do not watch carefully.

With an approximate total of 18,000 voters in the city, it was up to the election board to carve out some new precincts. The average number of voters to the precinct was well over 300. It they all wanted to vote and took the maximum time to prepare their ballot, there would scarcely be time to accommodate them.

Final registrations for the election, November 8, will be Friday and Saturday October 21 and 22. Hours are from 8 a. m. to 2 p. m. and from 4 p. m. to 9 p. m.

For those who were not in Lima on the regular dates, registration will be held Saturday November 5, from 11 a. m. to 12 noon and Monday, November 7, from 1 to 5 p. m. at the offices of the board. Transfers will be issued on the latter date at regular polling places, between the hours of 2:30 to 5:30 p. m.

Polls will be open on election day from 5:30 a. m. to 5:30 p. m.

MEN AND MATTERS.

O. J. Hawn and E. L. Ulrich, of Bradner, evangelists of the Church of Jesus Christ of Latter Day Saints, will open a series of meetings in the former Salvation Army headquarters opposite the market house, on S. STRENDERS TO POLICE

WARREN, Ohio — William W. Roberts, postmaster at Leavittsburg, Pa., for whom postal inspectors have been searching, surrendered to local police today. Inspectors at his postoffice accounts are short approximately \$5,000. Roberts disappeared last Thursday when officers allowed him to go into a restaurant here. He says he has been in Pittsburg.

In an election in Watsonville, Cal., only six of the 1600 voters cast ballots.

PROBERS DECIDE ON SECRECY

No Information to be Given Until Final Report.

CHIEF ROUSH OFFERS AID

Police Head, Under Fire, Writes to Commission.

That no information concerning places of meeting, witnesses called, evidence offered or other pertinent facts connected with the activities of Mayor F. A. Burkhardt's special committee is to be made public until the committee had made thorough investigation of charges brought against Chief of Police O. J. Roush and the committee's findings submitted to Mayor Burkhardt, was the statement of L. Earl Ludwig, chairman of the committee, Thursday.

Under the statutes governing the appointment of such a committee, it has the right to hold meetings, call witnesses, administer oaths, compel testimony and conduct its investigation in any manner suitable to its members and within the reading of the law.

That the entire investigation of charges against Chief Roush will be held secret and that no information of any testimony or witnesses or possible verification of such charges shall be made a public matter until the committee has ended its probe, was practically decided upon, Ludwig said.

City Solicitor H. E. Garling said Thursday that the committee had received full authority to go ahead with its probe and that he is unaware of what its activities might be.

Mayor Burkhardt intimated that he was not connected further with the case, except as he might be called before the investigation committee to testify.

Chairman Ludwig would not state whether a meeting was held Thursday.

CHIEF OFFERS AID

Melvin E. Light, retained as counsel by Chief of Police Roush, Thursday said the following letter will be presented at the next meeting of the investigating committee:

"Mr. L. E. Ludwig, Chairman of Committee of Investigation, 'Lima, O.

Dear Sir:—Believing that your commission will seek the facts and the truth without bias and prejudice and that the truth will vindicate the confidence which I believe is reposed in me by the people of Lima in my efforts as chief of police to protect and preserve the laws, property and good morals of the city, I desire to offer you my conscientious co-operation and my assistance I am able to render to you in ascertaining the facts and the truth."

Signed sincerely,
O. J. ROUSH, Chief of Police.

FUNERAL SERVICES FOR CHARLES SCHOTT, FRIDAY

Funeral services for Charles Schott, 37, who died at the District Tuberculosis hospital, Wednesday, will be held Friday at State Line church, near Collins. Rev. Groves will officiate. Interment will be at State Line church cemetery.

Schott had been ill two years. Besides his parents, he is survived by three brothers, John, Jacob and William Schott, of Fort Recovery.

LIMA MAYOR TO SPEAK AT CITY PLAN MEETING

The Ohio State Conference on City Planning will meet at the Hotel Desler, Columbus, October 20 and 21.

Mayor F. A. Burkhardt Thursday announced that he will attend the conference and address the meeting during its session. He has accepted.

Twenty-five of the largest cities in Ohio will be represented at the conference, the purpose of which is discussion of methods of municipal government as applied to incorporated cities in the state.

Pastors of the Northern Ohio A. M. E. conference, numbering about 60, will be stationed at the close of the conference Sunday, by Bishop J. H. Jones, Wilberforce university.

The conference was in session Thursday in St. Paul's A. M. E. church, W. Spring-st. More than 100 musical and lay delegates are in attendance.

The session Friday will be given over to reports of women's societies and missionary work in the conference. The Rev. H. H. Fox and R. R. Downs, former pastors here, are in attendance at the conference.

"SIGNS OF WINTER" ARE APPEARING AS OLD BOREAS PREPARES FOR BIG BLOW

"Little Signs of Winter" are appearing here and there about Lima. Screens are coming down, coal threatens to go up, storm doors are coming out, winter provisions are going in.

One of the usual sights seen on Lima streets is the long string of coal trucks and wagons, making their various ways hither and yon, distributing fuel for the first onslaught of rigid weather.

Downtown merchants are displaying clothing appropriate for colder weather; automobiles that a few days ago were sporting about in all the nonchalance of summer garb have taken on winter tops and new side curtains; their owners have supplied themselves with skid chains and are prepared for something different than the broad of weather that has prevailed for months past.

"Little Signs of Winter" are noticeable everywhere; on the street, in the home and in business establishments. Coal and steam heating systems are going full blast in hotels and public buildings. Snow plows have been inspected and all is in readiness for the coming of the Storm King.

LIMA REALTORS ATTEND SPRINGFIELD CONVENTION

The 14th annual convention of the Ohio Real Estate Board got under way at Springfield Thursday morning. Approximately 30 Lima real estate men left during the day for the meet. Others are scheduled to leave Thursday night. The convention will close Saturday.

Elaborate plans have been made for entertaining the visiting realty men during the three-day convention, and a large volume of important business is expected to be transacted it is said.

Lima realty men who are attending the convention are: T. W. Blackburn, John M. House, Conrad Bros., Owen Dickason, Huston-Holmes Co., Fred H. Fisher, O. D. Fisher, Dwight F. Fullerton, Gidding Sons & Co., Griffin & Jenkins, James H. Hofer, John R. Hooker, G. E. Leist, Lima Investment Co., Michael & Fishel, Morris & Spencer, Motter & Green, W. S. Shepard, Ross D. Sproul, C. E. Siles, B. A. Weadock, Elmer D. Webb, R. O. Woods and John Wyre & Son.

FRED HARRISON SEEKS PAROLE FROM PRISON

Fred Harrison, negro, has been recommended to the division of pardons and paroles, by the warden and chaplain of the Ohio Penitentiary as eligible for parole from the Ohio state penitentiary, to which he was sentenced more than a year ago.

Harrison's case will be for hearing on November 1.

Harrison was convicted of shooting Dewey Baker, white, discharged soldier, on April 30, 1919, during an argument.

The shooting occurred near Main and Wayne-sts.

HOOPER TAKES FIRST VACATION IN PERIOD OF 2 YEARS—ON 13TH

The 13th holds no terror for J. H. Hooper, second deputy city auditor who chose Thursday to enjoy the first day of relief from the arduous duties of his office in over two years.

Hooper has been on the job steadily and Thursday being the occasion of his brother's birthday, he elected to take a day off, regardless of the fact it was the 13th.

SIXTY A. M. E. PASTORS TO BE ASSIGNED SUNDAY

Pastors of the Northern Ohio A. M. E. conference, numbering about 60, will be stationed at the close of the conference Sunday, by Bishop J. H. Jones, Wilberforce university.

The conference was in session Thursday in St. Paul's A. M. E. church, W. Spring-st. More than 100 musical and lay delegates are in attendance.

JOBLESS PARLEY IS CALLED

Mayor Responds to Request of Herbert Hoover.

A committee composed of members of the city's civic organizations will be called into special session Friday afternoon at 4 o'clock to discuss with Mayor Burkhardt various ways and means of providing relief for the rapidly increasing number of jobless in Lima, the mayor announced Thursday.

This action was taken after receipt by Mayor Burkhardt of a letter from Herbert Hoover, asking

that a comprehensive report of conditions in Lima be forwarded immediately to Washington. Mayor Burkhardt sent considerable data to Washington Thursday in reply to the request.

"Some action will be necessary in view of the fact the city has no relief fund to carry on the work of providing for the large number of unemployed men," stated Mayor Burkhardt Thursday.

"My present plan is to call a special committee of the heads of Lima's various civic departments into session Friday afternoon to discuss this matter fully and to determine how the city may best solve the unemployment question. I have full faith of the relief convention held in Washington and outlining steps taken by other cities in providing relief. This will be presented to the special committee Friday," the mayor said.

FORD WOULD OPEN WAY FOR JOBS

Can Solve Problem With Muscle Shoals, He Says.

DECLARES THE TASK SIMPLE

Hints at Plans if Allowed to Purchase Plant.

CINCINNATI—(By United Press)—“If the government will let me have Muscle Shoals, I’ll teach it something about solving unemployment problems.”

Henry Ford, automobile manufacturer and owner of the Detroit Toledo and Ironton Railroad, made that statement in an exclusive interview here prior to his departure for West Virginia coal fields Wednesday night.

Ford would not go into details about his plan.

“There are jobs in this country for every man who wants to work,” he said. “The solution of all this trouble is simple after it has been explained, but it is too long a story to tell now. I haven’t time to go into details before my train leaves. ONLY A START.”

“We have shown this country something about employing men but that is only a start to what we can do if we get Muscle Shoals, isn’t it, gentlemen?” he said as he turned to his son and three executives—C. E. Sorenson, W. H. Smith and W. C. Cowling—who are accompanying him on his trip.

Ford to whom he addressed the question smiled and answered.

“Indeed it is.”

The Muscle Shoals plant was established by the government during the war for the manufacture of nitrates. Ford has offered to take over the establishment to manufacture fertilizer but his offer has not been accepted.

Ford was in West Virginia Thursday inspecting coal mines. His private car left here Wednesday night.

MAY BUY ROAD

He denied reports that he had been negotiating for purchase of a railroad in eastern Kentucky.

Altho his party is not concerning itself with negotiations for purchase of other lines, Ford announced that his secretary was to consult with officials of the Cincinnati Mill and Blanchester Traction Line here today.

“The figure is right, I have told my secretary to notify officials of the road that I would be interested,” he said. The road would be converted into a branch of the Detroit, Toledo and Ironton Railroad.

B. H. Kroger, one of the principal owners of the C. M. & B. traction line, announced today that Ford held an option on the road.

A Home Treatment for Asthma

Makes Breathing Easier

A Worcester, Mass., doctor has suggested the following simple, harmless and inexpensive home treatment for bronchial asthma, chronic bronchitis and coughs and colds which threaten to affect the lungs.

At H. F. Vortkamp’s, Central Drug Co., Hunter’s Drug Stores or any retail druggists get a bottle of Oxidase (respiratory oil) tablets and slowly dissolve one tablet in mouth at regular intervals. Though harmless and pleasant they are so powerful in their action that even in stubborn cases relief often comes in a very few minutes.

Many cases who have been unable to sit up in bed gasping for breath and unable to sleep report that they now take an Oxidase tablet when going to bed and can then lie down and get a good night’s restful sleep.

Druggists everywhere are selling Oxidase tablets on a positive guarantee to refund the full purchase price of the first package if it fails to give prompt relief in any case of Bronchial Coughs or Asthma.—Adv.

RAILROADS MUST HIRE MORE MEN

WOULD HELP MATERIALLY

Unemployment Would Be Wiped Out, Is Belief.

(BY B. C. FORBES)
NEW YORK — (Special) — Unemployment has decreased, yes, but there is still a lot of it. And winter may bring more rather than less.

Here, for example, is the view expressed to me by W. H. Truesdale, head of the Delaware, Lackawanna and Western Railroad:

"I think, since about the first of September, there has been a decrease in the number of men unemployed in the territory thru which our lines run. I do not look for any very great improvement in the situation during the next few months. The contrary is more likely to be the case as soon as cold weather comes, owing to the customary shutting down of many activities after seasonal building and other operations are completed or suspended."

In any event, there will be need for doing everything possible to combat the unemployment menace. Britain has hanged the problem badly with the consequence that rights and breaking into stores have been rife. Unhappily, the British politicians in power sought long ago to win the favor of workers by distributing millions and millions in "dole," or allowances to idle workers.

This brought two evil results which should have been foreseen; it hampered the economy of life men to find work; and it became such a drain upon the national treasury that it could not be continued. And now the government is at its wits' end to know how to avert the alarming dangers that their shortsighted action has brought on.

What can we do, what should we do, to remove all occasion for trouble here?

The committee on unemployment now in session in Washington, consisting of able representatives of industry, finance, commerce and labor is formulating sensible recommendations. Its chief conclusion is that every community must bestir itself to handle unemployment in its own midst, leadership in co-ordinating relief measures to be shouldered in each case by the mayor. State and county authorities are urged to cooperate. This is sound and practical, as far as it is good.

But, after all, employment must come mainly from employers. Projects devised for the purpose of furnishing employment at the expense of tax payers cannot and should not go into effect in any way in conjunction with the unemployment confronting the nation.

Employers must be looked to for the best and most important efforts to provide work. A large share of the responsibility is theirs for we are called to turn to those who run the business of the country to solve problems arising therefrom.

Is it feasible for employers to take on more men now and during the next few months?

I believe it is.

Take the railroads. It is notorious that they have been scrimping expenditures most rigidly, that they have not been buying normal quantities of new equipment. They have been spending unusually little on maintenance, improvements and so forth. They should shortly be able

to help. Already the government has disposed of \$100,000,000 of their equipment trust certificates and congress is expected to sanction the planned financial relief without much further delay. Then the improvement in the security market has been such that railroad borrowing is again becoming practicable. Moreover, earnings are increasing. Therefore, since the railroad could spend quite large sums advantageously, every effort should be made by everyone concerned to enable the railroads to increase their working forces.

It is admitted that various raw materials are now selling below production cost and the universal explanation is that such materials must and will recover by and by.

Now, why should it not be good business for strong concerns of all kinds to place substantial orders covering future requirements, instead of continuing to buy strictly from hand-to-mouth? The banks precipitated deflation by applying the screws to borrowers when the boom—which these same bankers assisted in fostering—collapsed. Deflation had not only become necessary but, as a matter of fact, should have been started long before inflation reached the point it did. Industrial and commercial borrowers of high standing will now, however, find most bankers in a more responsive frame of mind. The banks have less of money to lend. They are beginning to look for the right kind of borrowers, for borrowers who can and will operate wisely.

Why, therefore, should not responsible, strongly fortified concerns, large and small, all over the country muster up enough courage and enough faith in the outlook to throw off at least some of their position and some of their timidity and begin ordering materials which they know they can use and which they know are bound to advance in price sooner or later?

The United States Steel Corporation has set an excellent example by setting aside \$10,000,000 for additions and improvements with a view to furnishing work for idle employees.

If all employers, in a position to do so, would demonstrate their confidence in the business outlook, the

SOUNDED LIKE A TRAIN RUNNING THROUGH MY HEAD

Herrick Co., former tells how he got relief from catarrh that was making him deaf. Says five bottles of Dreo did it.

"The roaring noises in my head sounded like a train running in it and I was getting very hard of hearing," declares Mr. C. C. Durand living five miles from Findlay, Ohio. Mr. Durand is a fine gentleman and well known to hundreds of the leading citizens of this city. "There was a constant dripping in my throat from the back of my nose which kept my voice husky and I was continually clearing my throat. I was nervous and got very little sleep. My breathing was hard while asleep and I often waked with a start."

"I've taken five bottles of Dreo and have received wonderful relief. My head is clear now, entirely free of those noises and my hearing back to normal. The dripping has ceased, my nerves quieted so that sleep comes to me as soon as I retired. My breathing is now free and easy."

"Dreo is a very fine remedy for catarrh and our people can take it and be assured of getting fine results."

Dreo is known to have a positive effect upon catarrhal conditions of the nose, throat and stomach. Pleasant to take, prompt to act, Dreo is being specially introduced by Hunter's Drug stores in Lima and sold by all druggists, adv.

unemployment problem would no longer be a financial but would become entirely manageable. A vast amount of building and a great many other improvements have been delayed and delayed because of high labor and high material costs.

While certain arbitrary unions are led by men who preach defiance of the inevitable trend towards lower cost level, wages have already been more or less readjusted in most directions. Consequently, it is becoming possible to start building and making needed improvements, at least on a scale sufficient to make a dent on unemployment.

Let employers get this basic thought into their minds: Unless those now responsible for the running of our great industries demonstrate their fitness to do so in a way that will keep enforced idleness

within reasonable bounds, there will arise, in time, an irresistible demand that some different way of running things be tried.

The net of it all is this: While it is eminently fitting that Mayors be requested to assume responsibility for unemployment relief, the real remedy lies chiefly in the hands of employers, especially powerful organizations well circumscribed financially.

HEADACHE GONE! STOMACH RIGHT! LIVER AND BOWELS REGULAR

Cascarets make you feel bully; they immediately cleanse and sweeten the stomach, remove the sour, acid and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from

the bowels. A Cascaret to-night straightens you out by morning—a 10 cent box from any druggist keeps your stomach regular, head clear and liver and bowels in fine condition for months. Children love Cascarets too.

CASCARETS WORK WHILE YOU SLEEP.

And, incidentally, you and I and every other householder—and consumer can do our part to hasten better times and wider employment by calling off our "strike" against buying and retaining normal spending.

MILLIONS GIVEN TO HUMANE CAUSE

Great Interest Awakened in Children and Animal Welfare

CONVENTION OPENS MONDAY

Meeting Will Mark Epoch in Work, Secretary Says.

PHILADELPHIA.—(By Associated Press.)—The advancement of humane interest in all sections of the country will be the outstanding thought at the 45th annual convention of the American Humane Association and the annual meeting of the American Red Star Animal Relief, a department of the association, here October 17-20.

"The indications are that the convention will mark an epoch in the development of humane work in this country," said N. J. Walker, Albany, N. Y., secretary of association. "For nearly half a century the American Humane Association, representing organized anti-cruelty work and individuals interested in the cause in this country, has sought to spread the gospel of kindness to every living creature. In no year has its work been more active or successful than during the past twelve months. This applies to humane operations in behalf of both children and animals."

MILLIONS GIVEN.

"The past year marked the gift of several million dollars toward the promotion of the practical usefulness of our first and greatest society for children. Hundreds of thousands also have been given for animal work. There has been a great awakening in the humane cause."

Speakers of prominence will address the meetings which will be presided over by Dr. William O. Stillman of Albany, N. Y., president of the association. These will include Wayne Dinsmore, secretary of the Horse Association of America; Dr. Francis H. Rowley, president of the Massachusetts Society for the Prevention of Cruelty to Animals; Frank Rutherford, operative manager of a Pennsylvania Society for the Prevention of Cruelty to Animals; J. Ewing of East St. Louis; Horace L. L. of Cleveland; H. L. Roberts, of Chicago; Miss Agnes Repplier, of Philadelphia; Eugene Moran, of Columbus, Ohio; and Dr. A. E. Frederick, state humane agent of Wisconsin.

In the children's section, which will occupy the last two days of the convention, the speakers will include Judge Robert J. Wilton of the children's court, Brooklyn; Alfred E. Williams, secretary of the Pennsylvania Society to Protect Children from Cruelty; Miss Jeanie Minor, acting secretary of the New York Child Labor Committee; A. M. Welch, of Tulsa, Oklahoma; Welcome W. Braden, of Omaha, Neb.; Dr. Thomas E. L. of St. Louis; and Dr. J. H. of St. Louis. Roland S. Morris, former ambassador to Japan, will be the principal speaker at a dinner on the night of October 18. Governor Sprout of Pennsylvania also has been invited to give an address at the dinner.

Are You Losing Your Grip on Health?

Physician's Prescription to Increase The Health and Strength of Anaemic, Run-down Men and Women

As a result of the tremendous strain of modern living so many people find that the nerve cells have become derelict, the whole system weakened and thousands of men and women are today losing their grip on health simply because their blood is thinning out and possibly starving through lack of iron. It is through iron in the red coloring matter of the blood that life sustaining oxygen enters the body and enables the blood to change food into living tissue, muscle and brain. If people would only keep their blood filled with strength-giving iron by taking Nuxated Iron when they feel weak and run-down the might readily build up their red blood corpuscles and quickly become stronger and healthier in every way. If you are not strong or well you owe it to yourself to make the following test: See how long you can work how long you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Nuxated Iron will increase the strength of weak, nervous, "run-down" men and women in two weeks time, many instances. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. Nuxated Iron is on sale at all druggists.—Adv.

A MISTAKE

MAYOR BURKHARDT is making a mistake in his police investigation. When a member of the civil service commission of the city made grave charges against the chief of the police department and its members, it became imperative that the chief executive of the city take steps to ascertain what is behind them.

This is being done by the mayor, but in his notice to his special probers he is instructing them to investigate the chief only. This is not compatible with the mayor's attitude, expressed in a long list of charges against the entire department some months ago.

While the city is spending money to have the affairs of the chief turned inside out, it should get full value by having the investigating board thoroughly probe the entire department.

There have been as many rumors and charges concerning the department as a whole as against the head of it. It is in this respect that the mayor is making his mistake. He could give the public full information concerning the department at the same time he furnishes it on the chief. His own charges, recently made, would indicate that this should be done.

With the mayor's committee confining its inquiry to the chief, in view of what has gone before, it would appear that the old fight to "get" Roush is merely being continued.

The public is not interested in any personal fights. What it wants to know is whether it has an efficient police department and if not, where the bad spots are.

OFF TO THE MOON

ALL aboard for the moon! Prof. Robert H. Goddard of Clark University announces that a rich man has furnished "the necessary" and that the Goddard Rocket, sensation among scientists, will be fired from the earth to the moon next spring.

Who will travel inside the rocket? "I have 20 applicants," says Goddard. "All of them are adventurers, rather than scientists." Naturally!

JULES VERNE, in 1870, published "Twenty Thousand Leagues Under the Sea." It was considered the wild dream of a visionary. In reality, it was an accurate prophecy of the modern submarine.

In 1865, Verne published "A Trip to the Moon." Will it, also, prove to be an accurate prophecy? The Goddard Rocket will tell.

In Verne's book, the men who were rushing on their space in a shell, bound moonward, passed out of the earth's sphere of gravitation. They dropped a dog out. The dog didn't fall. It began revolving in space, around the shell, a satellite, just as the moon revolves around the earth.

That raises this important scientific question: Will the Goddard Rocket reach the point where the earth's gravitation field meets that of the moon, and pause there, suspended in space?

That would be annoying to the man inside the rocket.

MAN unquestionably will send huge rockets to the moon. If Goddard fails, other scientists will carry the work on to perfection. Unquestionably, too, dare-devils will travel inside the rockets. There's always some one that will try anything.

What of the mentality of such a venturer? Crazy? Why so? The rocket passenger in 30 seconds will live more than you and I live in 30 years. Then, too, he would be a martyr to a noble cause.

We of today live on the threshold of an age of scientific magic. What lies beyond can be imagined only by men like Goddard, with his moon rocket, or Marconi with his message from Mars.

HAVING conquered the earth, man will fly out among the stars and conquer space. Berlin, London, Tokio, Washington, Wall Street and Paris will cease to be the big sources of news. Headlines will feature dispatches from the Sun, Jupiter, Moon, Mars or "Somewhere in the Milky Way."

Sadi Lecoq, Frenchman, has just traveled nearly three and a half miles a minute in an airplane. At that rate, as soon as science learns how to counteract gravity, we could fly to the moon in 40 days. Electricity, sent by wireless, will be the motive power.

Pity you cannot live another 100 years, to see the scientific marvels of the future.

USEFUL

A MAN flies higher into the air than ever before, or does a new trick acrobatic act with an airplane. But that doesn't materially hasten the day when you and I can fly in safety.

Aviation will progress faster when it is regarded as a business proposition, not a stunt. The Aero Club of America knows this. It offers a cup to the designer of a plane that can carry "the most load and greatest distance in the shortest time for the least money."

That's a step toward cheap freight and passenger traffic by air route. Approved!

PATERNITY

(By DR. WM. E. BARTON.)

THE world has been and still is close to the rim of bankruptcy. America cannot expect to escape her share in the depression that follows war. But we shall recover eventually. The essential elements of prosperity are inherent in American life.

We have one asset of incalculable value in the return of nearly all the men who volunteered or were drafted to fight in the world war. The manhood of our nation is essentially unimpaired.

This means that two millions of our girls have or will have husbands, girls whose hope of matrimony was in jeopardy. It means that the American stock in the next generation is to be propagated not by weaklings and cowards, but by the men who in 1918 were physically fit to fight.

The best type of immigration that comes into America is not that which walks down the gang-plank on its own feet, but that which the good angels bend down and drop into the cradles of the land.

More important to our civilization than the locomotive or the automobile is the baby carriage. Homes are being established. The home market must be our first reliance for prosperity.

Europe has suffered a loss in its man-power not only or chiefly in productive industry, but in potential fatherhood.

America's potential paternity is the basis of her rocking; and the nation that rocks the cradle is the nation that rules the world.

Keep the home fires burning. There are happy brides for whom they may be kindled, and there are strong, husky young men to saw the wood.

America's potential paternity is the basis of her prosperity.

HEALTH TALKS

Common Sense Ways to Keep Well
HOW GERMS ACT

The common conception concerning germs is rather hazy. People regard these little animals of organisms as beasts of prey that lurk in wait for their victims in out of the way corners.

Now the germ as a rule is a very delicate creature. It must have food to live upon and darkness to live in. Sunlight usually destroys germs immediately as does the usual temperature of the outdoor air.

Germs multiply under favorable conditions in terrific numbers. It is only the fact that they cannot get enough food that keeps them from filling up the earth in a few hours.

The dark interior of the human body is a somewhat less in resisting powers is an ideal place for germs to multiply and do their poisonous work. Thus we come to the conclusion that it is from persons and not inanimate things that do not contain the conditions for breeding germs that diseases are "caught."

Many people are afraid to touch a car strap or a book that has been used by strangers and many people much as they like money, are often afraid of old, worn-out currency.

In the bureau at Washington where old, worn-out currency is received for redemption, it is said that infectious diseases has never occurred among the clerks who handle it.

There must be a good reason for this amazing fact and it is therefore probably because the germs of infection find the best place to live in the warmth of the human body rather than in inanimate things that do not furnish the essential conditions that favor their existence and activity.

If infectious diseases were really conveyed by such means as money, rags, car straps, etc., one of the best media imaginable would be old rags, and a test of this theory would be found in the rag markets of Alexandria, Egypt, where the rags are largely the cast-off clothing of the natives of the interior who infectious diseases are always prevalent.

Yet the British sanitary officers have never discovered infection among the people hired to handle this merchandise.

The real reason is that the tubercle bacillus as well as those of other infectious diseases die or lose their potency for harm in a very short time after it has been expelled from the mouth, throat or lungs of the patient. It cannot remain on inanimate objects or suspended in the air and retain its power for activity, but expelled by cough or sneeze into the face of another it becomes dangerous for it immediately finds a place to live in the new body where conditions are more or less favorable.

Home-made Remedy Stops Coughs Quickly

The best cough medicine you ever used. A family supply really and quickly made. Saves about \$2.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It is cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Nature demands, too—cough like it—and it is pure and good.

Four 25c ounces of Pinex in a pint bottle; then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This you make a full pint—a family supply—costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heats the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for healing the membranes. To avoid disappointment ask your druggist for "25c ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction, or money refunded. The Pinex Co., Ft. POTASSIUM, LIME, BRICK FROM SAND

Science has turned the green sands of New Jersey into salts of potassium agricultural lime and building brick. As a result, a huge potassium plant is in operation in the state.

In former years the United States imported potassium. Then geologists and chemists found that the green sands contained great quantities.

The potassium is tied up with the silicates, of course, but when the sand is digested with time the calcium of the lime displaces the potassium so that it forms a soluble salt and may be recovered, after certain refinements, as caustic potash.

From potash the other potassium salts, including chlorides, sulphate and carbonate, can be made.

Much of the sand in the eastern part of the country is in need of lime, and the waste calcium salts from the New Jersey potassium plant are suited to such use, correcting soil acidity and improving the general condition.

It will take the entire output of the plant for some years to meet this demand.

The huge plant also makes sand-lime brick in great quantities, placing New Jersey at the door of a great consuming market.

The lime-burning plant is the largest in the world.

ABE MARTIN

"I would have given myself up six months ago if I'd known I could smoke cigarettes in jail," said Wm. Plummer, who was brought back from Iowa "day" answer of the charge of murder. At the big get-together meeting at Melodeon hall last night, Hon. Ex-Editor Cale Fluhart spoke for almost a minute, confining himself closely to the wonderful record of the present congress.

"The pulse of life I cannot feel. The skin is dried and brown. Now look!" a bulb beneath my heel I crushed and trampled down.

In anger then he said to me: "You've killed a lovely thing: A scarlet blossom that would be some morning in the Spring."

"Last night a greater sin was mine."

To him I slowly said: "You trampled on the dead of mine. And told me they are dead."

WOMEN OF MIDDLE LIFE

A Dangerous Period Through Which Every Woman Must Pass

Practical Suggestions Given by the Women Whose Letters Follow

Afton, Tenn.—"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. During the Change of Life I was in bed for eight months and had two good doctors treating me but they did me no good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, which I did, and in a short time I felt better. I had all kinds of bad spells, but they all left me. Now when I feel weak and nervous I take the Vegetable Compound and it always does me good. I wish all women would try it during the Change of Life for I know it will do them good. If you think it will induce some one to try the Vegetable Compound you may publish this letter."—Mrs. A. KELLER, Afton, Tenn.

Mrs. Mary Lister of Adrian, Mich., adds her testimony to the value of Lydia E. Pinkham's Vegetable Compound. She says:

"It is with pleasure that I write to you thanking you for what your wonderful medicine has done for me. I was passing through the Change of Life and had a displacement and weakness so that I could not stand on my feet and other annoying symptoms. A friend told me about Lydia E. Pinkham's Vegetable Compound and the first bottle helped me, so I got more. It cured me and I am now doing my housework. Your medicine is certainly woman's friend and you may use this testimonial as you choose."—Mrs. MARY LISTER, 608 Frank Street, Adrian, Mich.

It is said that middle age is the most trying period in a woman's life, and owing to modern methods of living not one woman in a thousand passes through this perfectly natural change without experiencing very annoying symptoms. Those smothering spells, the dreadful hot flashes that send the blood rushing to the head until it seems as though it would burst, and the faint feeling that follows, as if the heart were going to stop, those sinking or dizzy spells are all symptoms of a nervous condition, and indicate the need for a special medicine. Lydia E. Pinkham's Vegetable Compound is a root and herb medicine especially adapted to act upon the feminine system. It acts in such a manner as to build up the weakened nervous system and enables a woman to pass this trying period with the least possible annoying symptoms.

Women everywhere should remember that most of the commoner ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative and often prevents serious troubles.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

TEN ARE TAKEN IN CAR ROBBERIES

Nine Men and a Girl Rounded Up By Officer Squad.

CLAIM LOOT IS RECOVERED

Detectives Say Ft. Jennings Theft Cleared Up.

Nine men and one woman, a girl in her teens, have been arrested by city and railroad police, on charges of robbing freight cars on the Chicago & Erie and L. E. & W. railroads.

Arrest of the men means that the car robberies which have caused considerable loss to the roads may be stopped. Several of the party are suspected of being implicated in other robberies, among which are the Fort Jennings affair, bidding cigar store and holdups and housebreakings in and around Lima.

Those arrested for burglary were registered as: William Cramer, 25 1031 Forest ave.; William DeWitt, 24, of 965 Reservoir; Ernest Davis, 21, of 1001 Forest ave.; Otto Newland, 23, of 1030 Arch ave.

Others taken on suspicion, and who may be arraigned on other charges are: Dan Cramer, 23, of 122 E. Spring st.; Bill Kennedy, 16, of 135 1-2 S. Main st.; Elzie McVicker, 21, of 663 N. Union st.; Clarence McAdoo, 29, of 327 N. Shore Drive; Lewis Cramer, 22, of 1025 Forest ave. and Mary O'Brien, 17, of 122 E. Spring st.

GOALS RECOVERED
Tuesday night a car in the Erie yards, was robbed. Two pairs of shoes, two crates of onions, two cases of candy and a Ball of twine was taken. Apples were taken from another car. Police recovered a quantity of property, they state.

Two automobile loads of railroad and city officials for the night of the side late Wednesday. They raided the Cramer house at 1031 Forest ave.

William Cramer, William DeWitt and Dan Cramer were taken to the station.

Those who took part in the raid were: Officers Martine and Jennings of the city police; railroad detectives Reed, Rosen and Thomas and constable Charles Ploch.

From evidence obtained from the trial other arrests followed. The O'Brien girl, who is believed by police to have had a hand in the robberies, was turned over to the juvenile court. She will be tried as delinquent.

ROBBERIES ADMITTED

The men have not been arraigned. Confessions admitting the Fort Jennings robbery and the theft of large quantity of gasoline are said to have been obtained by railroad officers. Bill Kennedy, 16, boy member of the gang, led police to the place where the gasoline was cached Thursday, they say.

He is to be turned over to the juvenile court officers.

Y. M. MEMBERSHIP RATES REDUCED

Consistent Reductions Made in Aid of a Larger List.

At the regular monthly meeting of the Board of Directors of the Y. M. C. A. Wednesday night it was voted to reduce the membership fee for young men from 15 to 21 years of age from \$14 a year to \$12 a year cash, or \$13 in payments. The rate for men 21 years and over will be \$10 cash or \$14 in payments. The Business Men's rate will remain as formerly, \$25. One reduction was made in the rates for boys: the rate for high school and employed boys, which was reduced from \$8 to \$7 a year. The membership rate for cadets will remain at \$5 and the grade school boys' rate will be \$6 as formerly. These rates include all privileges.

A number of associations are favoring young men from 18 to 21, as frequently their wages are not as large as in the case of older men.

Twenty-four shop meetings were held at the noon hour in the various industries, with attendance of 2064. Five Bible classes were held in the shops, with attendance of 215. Seventeen educational movies were shown in the engine houses and schools, with attendance of 6002.

The physical department privileges were used by 2421 men during the month and 1240 boys, a total of 3661. The boxing, all-boys are in first-class condition for the season boxing. The Industrial Y. M. C. A. League has already started.

Two Y. M. C. A. clubs are being re-organized in the high schools. Officers have been elected for this year and part of the year's program outlined. Father and Son Week will be observed November 6 to 12. A carefully selected delegation will be worked up for the Older Boys conference, which comes about Thanksgiving time and will be held in Dayton. A friendship campaign will be conducted among the boys in March.

The recent membership campaign stirred up considerable interest in the Y. M. C. A. and a large number of men and boys joined. The boys campaign is still in progress.

FAMILY TOLD TO GET OUT

THE FEDERAL HOME BUILDING COMPANY

LORAIN, OHIO
Oct. 7, 1921

O. B. Rea,
415 Kansas Ave.,
Lorain, Ohio.

Dear Sir:

We are enclosing herewith notice to vacate the premises you occupy. This is in accordance with instructions received from Philadelphia office, and we trust you will comply with same at once or pay this amount of rent you are in the arrears.

Yours truly,

THE FEDERAL HOME BLDG. CO.
By *Thos. Stark*
Manager.

Mrs. Norman E. Reigel and her two children, shown above, have been threatened with eviction from their home in Lorain, by the U. S. Shipping Board. Below is a facsimile of one of the eviction letters sent to close 100 residents of the Shipping Board reservation in Lorain, who protested to President Harding against the proposed evictions.

TOWERS ORDERED EVICTIONS

Lasker Finds Sender of Ouster Edict to Lorain.

FOLLOWS PROBE BY HARDING

Tenants Hold Homes After President Intervenes.

WASHINGTON. — (By United Press). — An explanation as to why he ordered the evictions of 100 tenants from shipping board houses at Lorain, Ohio, was demanded by Chairman Lasker from William Towers, Philadelphia, in charge of the board's houses, when he appeared before the chairman today.

After denying that the board had ordered the evictions, Lasker found the order had come from Towers.

TOLD TO VACATE
The Shipping Board sent eviction notices to more than 100 families behind in their rent. The heads of these families have been able to make only meager wages since ship-tiding was stopped and the steel industry was curtailed.

Mayor William F. Grall of Lorain appealed to the president to stay the evictions. The president intervened and ordered an investigation.

"It seems to me this action comes with bad grace from the Shipping Board, which has let millions slip thru its fingers," said Mayor Grall.

MOVE TO BAIN
The mayor pointed to the fact that the Shipping Board this year, by one deal, lost more than a million—or enough to pay the rent for 15 years of the 232 families living in its houses here.

The Shipping Board has offered the houses, which cost approximately \$1,350,000, for sale, but the highest bid it got was \$450,000.

Twenty tenants moved before the president received Mayor Grall's appeal. One of the families moved to a barn—and the house, from which they moved is still vacant.

DRILL RECORDS FEATURE FIRE PREVENTION WEEK IN LIMA PUBLIC SCHOOLS

Fire prevention week, October 10 to 14, is not being observed generally in Lima public schools, according to announcement made by Superintendent of Schools J. E. Collins, Thursday. Principals of the various buildings are fulfilling the requirements of the state fire prevention laws, as applied to schools and public institutions, he stated.

Fire drills are held at regular intervals in the various schools and the efficiency of teachers and pupils in clearing the structures is remarkable in some instances.

On two occasions the Lowell school has been emptied in 35 seconds, once in 19 seconds and once in 45 seconds. Thirty-five seconds is the record time in which any Lima school has been emptied of teachers and pupils.

The time for clearing the buildings ranges from 33 seconds at the Lowell school to 30 seconds at the Irving. The average time for clearing buildings is 45 seconds.

WOMAN IS KILLED AT CROSSING

Mrs. George McDonald, Wapak, Dies in Grade Crash.

MRS. KENTNER BADLY HURT

Fate Pursues Members of Section Foreman's Family.

Cruel fate seems to pursue the family of George McDonald, Wapakoneta, section foreman on the T. & O. C. Railroad, whose wife was instantly killed when an automobile in which she was riding was struck by an east bound Lake Erie & Western passenger train at 5:15 p. m. Wednesday.

About four years ago Mrs. McDonald's son, Franklin F. McDonald, 24, Wapakoneta, was run down by a train on the Baltimore & Ohio railroad and his leg crushed so badly that amputation above the ankle was necessary.

ON SHOPPING TRIP
Mrs. McDonald was 45 years old. She had accompanied Mrs. Michael Kentner, 39, wife of a carpenter and contractor at Wapakoneta, to Lima Wednesday on a shopping trip. Darkness overtook the women before they started on the return trip. This and the fact a drizzling rain obscured the view of the railroad tracks, is believed to be responsible for the accident.

Mrs. Kentner suffered a broken leg and wrist. At City hospital, to which she was removed, it is feared that she received internal injuries. Announcement from the hospital, Thursday morning, was to the effect she was only slightly improved over the condition of Wednesday night.

The body of Mrs. McDonald was removed to the family home in Wapakoneta, Wednesday night.

The accident occurred at a grade crossing of the railroad on the Wapakoneta road about three miles northwest of the city just east on the Western Ohio overhead. The

automobile and its occupants were carried a distance of a thousand feet on the pilot of the engine. The women were removed from the wreckage when the train was brought to a standstill.

THE AUTO WAS CRASHED
The train was in charge of R. B. Hickok, engineer, and Roy Specs, fireman. John Morrissey was conductor.

In addition to her husband one son, Franklin McDonald, the victim of the Wednesday evening fatality is survived by three daughters, Mrs. Herman Blesse of Celina and Misses Marie and Florence McDonald, of Wapakoneta.

C. A. Hoover, farmer, residing near the scene of the accident, said Thursday he heard the locomotive whistle for the crossing and heard the crash when the auto was struck.

BANDITS HOLD UP COLLEGE YOUTH

Stansbury Loses Watch and Money to Quartette.

Four hold-up men operating in an automobile stopped and robbed Rodney Stansbury, Jr., 22, of 236 W. O'Connor st., late Wednesday night and escaped with a gold watch and \$4.80 in cash. The robbery occurred in N. Main st., near the north city limits.

Young Stansbury is a student at Ohio Northern university at Ada and was enroute home. The hold-up men followed him in a car, jockeying past and then dropping back until they reached a deserted section of the street.

They then rushed their car up to the curb and jumped out. "Throw 'em up," commanded one of the quartet roughly. Two of the band leveled revolvers at Stansbury and a third searched his pockets. The fourth man stayed with the machine. When they had obtained their booty, one of them gave Stansbury a shove and hastily climbed into the car and sped northward.

Rodney describes the band as all youths, unmasked, but with caps pulled well over their eyes.

Police threw out a dragnet, on being notified, but made no arrests.

TRUESDALE WINS DELPHOS JOB

Appointment as Postmaster Confirmed by Senate.

ARTILLERY UNIT PLANNED

Salaries of City Officials Cut—Lima Man Fined.

DELPHOS — (Special) — Edward E. Truesdale, appointed acting postmaster here after the resignation of A. J. Sheak last July to enter the mercantile business, and appointed by President Harding to fill the vacancy, was informed late Wednesday from Washington that the Senate had confirmed his appointment and that his commission would be forwarded soon.

Truesdale was assistant postmaster here for six years, from 1904 to 1910, when W. A. Coble was in charge of the office and was postmaster from 1910 to 1914.

Lieutenant Joseph A. Zahn of Lima, on authority from the assistant General of Ohio, holds out to Delphos the opportunity to secure a unit of the Ohio National Guard.

If a sufficient number of recruits can be had here, an artillery company will be formed. Sixty-five men will be required. Four new artillery units are to be formed and Delphos has been selected as one of the locations.

Nearly all officers and employees of this city who serve after January 1, will receive less salary, council having used the pruning hook on salary lists. The mayor is cut from \$55 to \$50 per month, president of council from \$60 to \$50 per year, members of council from \$60 to \$50 per year; treasurer from \$250 to \$225 per year, solicitor from \$350 to \$300 per annum, chief of police and patrolmen from \$125 to \$100 per month, fire department drivers from \$125 to \$115 per month, chief engineer at the water works from

\$150 to \$115 per month with free house and water rent, assistant engineer from \$121.65 to \$110 per month, clerk of the board of sinking fund trustees from \$150 to \$125 per annum.

These reductions make a cut of \$2,571.34 in the annual payroll.

Information received from the Ohio State University is to the effect that St. John's high school here has been placed on the accredited list, with other schools, colleges and universities. Graduates of St. John's may thereafter enter college without preliminary examination.

R. A. Hall, a Lima man, arrested on a charge of speeding his auto on the Lincoln Highway, east of Lima, was fined \$10 and costs.

Hall's arrest followed a wild dash from Van Wert, officers say. He was overtaken by Motorcop Davies.

RIDDLES

(By IRVING BACHELLER)

are papers which will prove...
"Still, that is a matter for me to decide," the attorney insisted. "The examination will come on tomorrow. Then, of course, you will have to tell the truth. Meanwhile, you had better let me know what is coming. It will be easier for all of us."
"I am in a rather embarrassing position. Give me a few hours in which to think it over," said Riddles.
"Only give me your word that you will appear at the justice's office at ten to-morrow. It would delay and embarrass us if you were to leave the state."
"I give you my word for that," said Riddles.
"Your word is sufficient. Some of us know you pretty well here. And by the way, our leading citizen—Mr. David Galt—is giving a dinner to-night at the Country Club to his new brother-in-law, Mr. J. Reginald Travers. A man, you know, who is highly esteemed here. I have the matter in charge, and I am sure that I shall be expressing his wishes when I ask you and your friends to that dinner."
"I think I can speak for my friends and tell you that we shall be glad to join your party," Riddles answered.
Riddles and his superintendent, Mr. John Galt, left their friends at the inn and rode out to the Martin farm.
"I was never quite so excited in my life," said Galt.
"You may well be," Riddles answered. "You are going to meet the sweetest girl in America—had luck to you!"
"I appreciate your kindness—old man," said Galt.
"I hate it," said Riddles. "I recommended you; but remember, if she turns you down it's me for the breach."
There was the house. As they entered in at the familiar gate, Riddles felt a thrill that brought the color to his face. He was not now and would never be again the drawing, whiskered, illiterate Uncle Sam. He was in purple and the lion with the urbane manners of Riddles of Belle Harbor. The big, silent, glowing limousine with its silver mountings—so unlike the mud stained "Maggie totes" in which he had traveled that road—was the modern symbol of opulence. Harriet and mother were cutting roses near the front door. The car stopped near them.
"I'm glad to see you wearing that frock—I always liked it," said Riddles as he got out of the car. "I am sure Miss Harriet will be glad to see many of your friends and guests only of you. Give you with a foolish masquerade."
Miss Harriet looked at him for a moment while her cheeks grew redder. She stepped forward and gave him her hand with a merry smile, and with a pretty touch of dignity in her manner.
"My goodness!" she exclaimed. "What a change! But you never deceived me. I knew that you were a gentleman."
"And I owe you many apologies," said Mrs. Martin. "I am sorry that I am in your debt, the apologies should come from me," Riddles answered.
"What a riddle is a woman's heart! I want you to tell me to dinner and really get acquainted before you form an opinion."
"It will do no good. Don't worry about me. My plans are made."
"Perhaps you are already engaged?"
"Not quite. But my mind is made up. I know what I am going to do. Can you come to dinner this evening and you may bring your friend?"
"I am sorry. We are to dine with Mr. David Galt at the Country Club. He is paying a compliment to his new brother-in-law."
"Oh, then I will see you there. I had not quite decided to go. I think my time is up. They will be looking for us and we haven't seen the pigs. On the whole, I think we had better not look at the pigs."

INGROWN NAIL

Toe Nail Turns Out If You Toughen Skin.

A noted authority says that a few drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so touches the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost overnight.

"Outgro" is a harmless antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.

Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisided coconut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Multisided coconut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

ONCE UPON A TIME THERE WERE NO DOCTORS!

The Doctor Was Not Much Needed Until Folks Began to Break Nature's Laws.

Doctors Preach Prevention Is Better Than Cure.

Ninety per cent of all disease is preventable, so doctors say. But simple food, exercise wisely, sleep sufficiently, and—what is vitally important—make sure of the daily regular, thorough elimination of body waste, and the chances are nine to one that you will keep well, work efficiently and enjoy life. Bowel elimination of food and tissue waste is all-important. But in case of irregularity, disordered or imperfect action do not make the common mistake of taking harsh, violently acting medicines, with the idea of forcing the bowels to act. Nature believes in mild methods. She responds best to persuasion.

So in selecting a simple remedy to regulate and assure proper bowel action, you should not use harsh or violently acting remedies, no matter how much has been claimed for them. You should choose some well-known, time tested, trial proven remedy, that has made its reputation by being used for many years, by all sorts of people, all over the world. Take Beecham's Pills for example. Beecham's is a household word, has been for over half a century. People not only take Beecham's but recommend Beecham's to their friends. Their use is handed down from father to son or from mother to daughter, from one generation to another. Did you ever hear any complaint or criticism of Beecham's? Isn't that a pretty powerful endorsement of their worth? Druggists are glad to sell Beecham's.

Whether you use a washing machine or tubs

These two easy steps save you the hardest work of washday

THE most soiled spots, the dirtiest things that even your washing machine fails to get clean, are cleaned without any rubbing when you use Rinso.

Rinso is so perfect a combination of pure cleansing materials that it loosens the dirt from even the worst soiled pieces of the family wash without injury to a single fabric.

After soaking your clothes in this pure soap product, a few minutes in your washing machine gets them beautifully clean.

Follow the simple directions given above. After soaking the clothes wring them into machine full of hot water to which has been added enough fresh Rinso solution to make a good suds. Operate machine and rinse clothes. No other soap product is needed when Rinso is used.

Whether you use a washing machine or tubs, get Rinso today at your grocer's or department store. Lever Bros. Co., Cambridge, Mass

From the way the Giants sweat, you can tell that Shanks' shot. As a pitcher you can see he's not what he's cracked to be.

Pat and take. 'Twas Giants' turn. Yanks are desperate. Plenty of seats left. Series crowds grow smaller. Minors game is still long. Babe's injury also cuts the receipts.

Gotham likes to see the Bambino swing at 'em. Big Ed Walsh of White Sox hung up world series record by winning 12 games but it took him more innings to do it while Babe's record is 10.

Talks at seven stops. Remington, former Yale, quarter-back, helps Coach Little. Co's groom Mount Union for Saturday's battle with Oberlin.

Bear stories from Delaware say injured hand was kept hidden. Turney of Ohio Wesleyan out of the game Saturday.

AND ON THE OTHER HAND

Western Union College, at La Mar, Iowa, has a football team. Where'd you suppose it gets its speed?

OVERLOOKED. It seems that the Athletic Union Committee has overlooked some of the finer points in formulating a parking place for the beaver's mitts in the wrestling game.

They eliminated the toe, head and strange holds, but they've overlooked such important other ones as kicking.

There is the case of Pierre, the Parisian baby, who weighs about a quarter of a ton. It is well known among his opponents that their easy way out is thru the Hippo's ribs, and if they are getting the worst of a match, all they need to do is to poke a finger in the Frenchman's side and fields him out of the money.

The Parisian rolls around the mat in hysterical laughter and in such a weakened condition that it's easy for his opponent to bounce him for a down. And there's no comeback from the referee.

"The Maine went down at Havana. And so did Gumbert Smith—in one round."

"The Jack" cupped a race on the track at Lexington. Luckily it's cupped in the biting ring.

HEAD coach John Heisman of the University of Penn. wants to put football teams in the field on the "high in" plan. In other words, he is in favor of an arrangement where a football player can be pitched against another of the same weight.

He says the public won't stand for a boxer of one weight being stacked up against another of greater weight and the fact that the same rule did not apply to football was one of the defects of the game.

Will somebody please wise up John that this is one of the big defects of the boxing game also.

For real football competition, we'd like to see a three-cornered contest between the University of Washington, Franklin College and Columbus College. Or maybe a game between Vanderbilt and Carnegie Institute.

GIANTS UNEASY AS WAITE HOYT TAKES MOUL

CHAMPIONSHIP NOW WITHIN GRASP OF EITHER OUTFIT

NEW YORK. — The world series may end today in a victory for the New York Giants. But they will have to break themselves of the habit of getting whipped by Waite Hoyt, the amazing young man who earns his living pitching for the Yankees. Twice already he has outwitted the McGraw men, permitting them for the first and only time, one score last Monday.

Artie Nehf, left-handed but trustworthy probably will pitch for the Giants. He was their flinger on both other days when Hoyt worked and he pitched well, his main trouble being the failure of his colleagues to render substantial encouragement with their bats.

The Giants have to win one game of the series to get the honor yesterday afternoon. Shufflin Phil Douglas pitched a 2 to 1 verdict for Carl Hubbell's Yankees like a ten pin player, but there just the same.

The Yankees have three. It was the first time since the condetta began at the Polo grounds last week that the Giants' pitcher had of the Huggins pack. Also it was the fourth triumph for the National Leaguers in the last five games.

If the Giants win today, the championship is theirs, while the Yankees to wear the crown, must go forward this afternoon and repeat in the game that would follow. It is no secret that they now tenant an unenviable position, sometimes described as having their backs to the wall.

M'Graw HAS EDGE IF SERIES GO THE LIMIT. For the present, the Yankees have the edge. But one cannot pull a team around every day, at least not in the long run. The Yankees' supply is much more plentiful than the Giants'. They are the only other boys who have shown a capacity to hit the ball. McGraw's team has a fast third baseman. His shoulder was hurt yesterday in sliding to second base, and he had to retire Frank Baker replaced McNally and got two hits, but the veteran has not the speed of the youth nor equal agility in the field.

Fate picked out the seventh inning to do the Yankees a mean trick. There is a cult of fans and writers which sternly holds the seventh to be the inning where such things almost always transpire and that usually they rebound to the greater glory of the home team. The Giants were the home team yesterday. They wore white uniforms while the Yankees made believe they were out in the country, and had on their darker working clothes.

POINT OUT "BREAKS" THAT NATIONALS GET. The aforementioned cult pointed out the "I told you so" club just a night. They had seen Mays and Huggins, batting along evenly into the seventh inning when, with two men gone, Huggins got to first on a hard roller that Ward muffed. "Well, there's the break," heard folks all around remarking, while Ward was thinking unkind things of his luck.

Fan Takes Slap at Lima Team. Lima, October 11, 1921. To the Sport Editor, Lima Daily News.

Not knowing this guy, Holloran who is supposed to run our ball team, nor how to teach him and being entitled to speak for myself and maybe a lot more fellows on the bench and when they come down the chalk line to coach third they just stand there instead of working like Clark does sometimes when he stays coaching third between innings. We don't expect everybody to play as good as Clark but they ought to try just like him anyhow.

These fellows Jones and Mann are alright pitchers, but why does a little town like Spencerville take away the pitcher Berry who was winning for Lima. Another thing is all them fellows sitting on the bench when the players ought to sit instead of playing around on the ground. I mean the fellows that don't wear players' suits. It seems they ought to be some place for their whether they are reporters or the papers or what. I suppose while they sit there smoking their pipes taking about the war or football or something else that cuts the nerve of the players, cause they're tired and on the line what so want them to run.

And the referee, he's a real one. I was told when I was coming that he'd tell you a side was cutting, but he told them they'd cut pitched balls make a lot of mistakes. He cause everyone is just making.

ROOKIE JACK DEMPSEY IN FIGHTING TOGS (LEFT) AND IN HIS FURMAN FOOTBALL UNIFORM (RIGHT).

GREENVILLE, S. C. — "If I were in the last quarter, and ever, you can take it in the time he carried the ball into the line, it would be a cinch," says Jack Dempsey.

Meaning Jack Dempsey young, rookie griddar at Furman University. Altho not related to the great battler, this Jack Dempsey looks much like the champ.

This is Dempsey's first year with the pugskin. He played in the football game against Newberry College last year.

Altho green, with little knowledge of the game, he made gain after gain with brute strength alone. In running back a punt six men hit him with terrific force—and did not even slow him up. He didn't even appear to realize that any one had hit him. After making several gains he carried the ball over for a touch-down with four men hanging on to him.

A FIELD RENNER. Dempsey is a fast broken field runner, and a star at receiving forward passes. Weighing 190 pounds, stripped, he can run a hundred yards in 12 seconds, which is some speed for a big man. He is only 21 years old and five feet nine inches tall.

Dempsey entered the navy in 1917 and stayed there until 1919. He was the best boxer on his ship, the cruiser Raleigh.

Dempsey would rather box than play football and like the great Jack Dempsey he has an awful weapon in either hand. His style is much like that of Jack's. He is game and likes to take a good sock. For this reason on the grid field they can't hit him too hard.

He is taking a B. S. course at Furman.

Mutrie, Once Manager of Giants, Now Sells Papers For Livelihood

NEW YORK. — When the baseball bugs gather around the stove this winter to argue the pros and cons of the 1921 world series and relash again what they saw and did, the most pathetic incident of the series will remain untold. For few of the thousands at the Polo Grounds who saw it knew what was going on.

This was the incident of a wobbly old man, dressed in his best spotted clothes, who was led across the field in front of the boxes to shake hands with John McGraw.

This old man, with the straggly gray mustache, was none other than Jim Mutrie, manager of the Giants in a long forgotten day. Misfortune and old age have brought him poverty. He is selling papers now for the pennies that he can gather for his livelihood.

His voice rings different now than it did in those golden days. It is not the yelling, bawling sort that echoed for miles about, but the piping kind that just reaches your ears in the rumble of a too busy city.

STRANGE CONTRAST. The old man's hands trembled as it took that of the bejeweled McGraw. Mutrie, in his whole career, did not get as much as McGraw does in a single season.

Stooped and hunched, he looked and sounded at the brightness of it all, for in his day they played to a bleacher crowd, and tattered uniforms and little paraphernalia were theirs.

Mutrie would have been completely forgotten, had it not been for a newspaper man who brushed him up, pulled him together and took him to the Polo Grounds.

A FOOTBALL PARTY

COLUMBUS. — Coach Walter Layman and his Denison University football team will be guests of Athletic Director L. W. St. John of Ohio State University at the Ohio State-Minnesota game here Saturday.

Denison plays Otterbein at Columbus on Friday and the entire team will come to Columbus to view Saturday's game here.

The people in Massachusetts are the thriftiest in the United States, government figures show.

Both teams are entries in an eight club bowling league that will commence their schedule at the Recreation Alleys the latter part of the month.

Central Grid To Mar. South Hi vs. Van Wert. Central Hi at Marion.

Both Lima High and anticipating hard battle when their football teams meet opponents.

Coach Young at South re-organized his team, referred two strainers.

A week ago last Saturday piled up a score of football teams meet opponents.

At practice Monday Young mixed up his play has a different line-up sent in Saturday's game.

tain Berger will probably back at guard. It is also that DuPere will signed the regular fullback and Winegardner will be a halfback.

Young is of the opinion game with Van Wert will self into a kicking duel and team which takes advantage breaks or openings will win.

Van Wert has enough back in school to form a nucleus, and it is reported informed circles that they being worked into a playing machine.

Central will present a late attack when their eleven men on in Harding's old team will be sprung from close formations. Coach Dietrich, looks for Marion to use a lead ball plays. "That is, I send men at the line from the quarterback making a late turn before feeding to the runner."

The Central team will be named to Marion by a large tion of fans and students.

MILD MANNERS IN MOVIES PROVE EFFECTIVE

(By ESTHER WAGNER)

QUALITY of acting evidenced in most of the first-class stage plays and, sad to relate, in very few screen plays is manifested in "After the Show." That quality is expressed in expression of emotion.

Wild gesticulating, pulling of the hair, blenching of lips and such violent means are usually employed to express the emotion which is conveyed largely by the voice on the stage.

Not so in "After the Show." The story is an ordinary one, no better than hundreds of other stories which have been screened, but the manner in which it is told is what counts.

William DeMille, the director, has called for this probably should largely to the director.

A decrepit old "corner" loves a young girl whom he has helped to gain a place in the theater. The old writer calls that "protective" love and the love of the girl for him "adoring" love.

A member of the show, a man-about-town, is enamored of the girl. She falls in love with him. This is called the "love of desire."

Things go on until the girl must choose between the old man and the younger one. The "love of desire" triumphs and the girl goes to a house party given by the man-about-town.

The old man is crushed. But he doesn't pull his hair or wring his hands. And DeMille didn't order a close-up to show the old man's anguish. (That, despite the fact that Charles Ogle has one of the most expressive faces in the movies.)

The old man went out to that house party. Yes, right into the room where all the hilarity was going on. He made the girl face him and the young fellow together and decide between them.

And she chose the young man and the "love of desire."

The young fellow gave his blood to the old man after the girl had offered hers. The transfusion saved the old man's life. The girl went back with him.

All is well that ends well. The young fellow really loved the girl. He told her he wasn't fit to live and the girl said the same thing about herself—and so they married and were happy.

That made the old man very happy. The fade-out of the old man registering his joy in the happiness of the girl is one of the best bits of facial acting yet given to the screen.

Charles Ogle was the old man. The accounts for that fine bit of acting.

William DeMille proved one thing in "After the Show," and that is—the much-overworked close-up is not needed to make a scene effective.

OWEN MOORE

"A Divorce of Convenience"

BY VICTOR HEERMAN

Love sick and lonesome, poor Jim Blake spent most of his time pining for the girl he loved and then when she did appear she found him in another girl's arms.

Mercy! In love with a charming young girl and then found in the arms of her father's young wife. But that's only one of the extremely humorous situations that arise in Owen Moore's newest comedy hit.

MUTT AND JEFF—JEFF SHOULD HAVE LET WELL ENOUGH ALONE—

By BUD FISHER

BRINGING UP FATHER—

By McMANUS

SHORT SHAVINGS

ROL AYERS, of the Central Drug Store, tells of a young married friend who was just about to make his debut as a traveling salesman for a Lima concern.

As Ayers puts it, this chap was told by a friend of a certain place to go to out in Sidney. And so, to get good service, the friend wrote down the name of "Cutie Blank-Sidney," a waiter and said if he would call on her and tell him that he was a friend of his, he would be noticed and well cared for.

Well, Ayers says, "he put the card in his pocket. That night his wife found it, and for some reason or other he gave up the road job."

MORAL: Keep your wife out of your pockets.

Deputy Sheriff Fraunfelder has discovered why women look so dainty eating a sandwich. In comparison with the hurried demonstration of a disappearing appetite appears of a man. He says the secret is in keeping the little finger as far away from the sandwich as possible. Did you ever notice it?

Lawyers are absent-minded folks. They get so accustomed to asking formal questions in courtrooms that their queries sometimes create laughter.

Justice of the Peace Ernest Botkin tells of one attorney who asked a question in this manner: "What if any, is your name? Answer yes or no!"

IT'S A GRAND OLD REMEDY

You can't keep strong and well without sleep. Whether your rest is broken by a painful itching cough or just an annoying tickling in the throat, the system becomes weakened and rundown. Dr. K. D. Drake, Childs, Md., writes: "After an attack of the flu I was left with a severe cough. Nothing relieved me till I used Foley's Honey and Talcum, which I can highly recommend. It cures every irritated membrane with a healing and soothing coating. I have used it and cleared my throat—Dr. J. Vorkamp, Main and McKibben-sts.—Adv.

PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

A Beautiful Complexion & Admiration

Ladies—A few days' treatment with CARTER'S LITTLE LIVER PILLS will do more to clean up the skin than all the beauty treatments in creation. An imperfect complexion is caused by a sluggish liver.

Millions of people, old, young and middle age, take them for Biliousness, Dizziness, Sick Headache, Upset Stomach and for Salow, Pimples and Itchy Skin. They end the misery of Constipation.

The Iron Food for Vitality

Real Raisin Pie

—you don't know it, unless you've tasted this one. Try the recipe and see

WHEN made correctly—it is easy—Raisin Pie rules in its own right as the Pie Supreme — man's favorite food-dessert.

Do you use a recipe like this one—have you ever tasted raisin pie made exactly in this way?

If not, you're unfamiliar with real raisin pie — the flavory, energy-producing dessert that

furnishes the blood with food-iron and helps to keep vitality up to par.

You need but a small bit of iron daily, yet that need is vital.

A million workers probably are refreshed daily by the digestible, quick-acting nourishment and vitalizing iron of raisin pie.

Whether you work indoors or out, you need this vitality.

SUN-MAID RAISINS

Use Sun-Maid Raisins, made from California's finest table grapes—American raisins, processed and packed immaculately in a great modern California plant.

Seeded (seeds removed); Seedless

(grown without seeds); Clusters (on the stem). Also a fine, ever-ready dessert.

Raisins are cheaper by thirty per cent than formerly. See that you get plenty in your foods.
